

Environmental Ed Volunteers Meeting Minutes

- I. Welcomes and introduction of Kimberly and volunteers.
- II. Michele with park closure and Stewards updates. *State parks have opened to locals who can walk or bike to the park only, camping and parking are not yet allowed and restrooms are closed. The coast is still closed to all people. Operations staff has been working to keep this enforced.*

- III. Check-ins:

How are you doing and how can Stewards support you during this time?

Projects: develop virtual content for our specific parks

We have received permission from the State Parks to record educational videos for the public, with notice given and wearing identifying attire. Please see free to email Kimberly at Kimberly@stewardscr.org if you are interested in recording a short video. Kimberly will be recording and editing.

Lotus has shared her CalNat capstone project with us and we may share that with the public and/or other volunteers who would wish to view it. Lotus also has a weather meter that signals to their smart phone and would like to share data with anyone who is interested.

Mike Roa would like to help with scripts for educational materials, and their son is a film maker who could help as well.

Karen G would like to volunteer to make videos.

How frequently should we meet/check-in?

- IV. Plan next meeting date
